

Indoor Swim Conditioning Pool for Dogs

Animal BoMaSi Body Work and Instruction

## Information and Pricing for BoMaSi Body Work / Aqua-ssage / Swim Conditioning

**Orientation:** Your first visit will include an orientation session, when we will give you and your dog a private introduction to our facility and information about your dog will be recorded.

If our goal is to swim your dog, we will proceed into "Montana's Oasis" and introduce your dog to the pool and the equipment in the room.

Every dog is different and the rate at which he/she will enter the pool will vary. Please note, orientations are given to one dog at a time. We don't provide orientations for two or more dogs as the focus is to provide a gentle environment and work with each dog at their own pace, and address their own concerns. (special circumstances accepted)

Experience has shown that 3 swim sessions within 7 days gives your dog the best benefit. Therefore it is our policy that 3 swim sessions is mandatory and the orientation session with 2 swims is offered at a package rate.

Every swim session is with in-pool assistance by a staff member.

Dogs usually wear swim vests or water harness to help them relax while in the pool. Aqua-ssage is a form of in Shari's own water BoMaSi (Bowen/Massage/Reiki).

If our goal is for "on land" BoMaSi we will introduce your dog to our elevation table, or if you have a large dog we will show them the padded deck mat.

Your dog will be assessed and reference notes taken during each session.

As we work with your dog, you will be shown some techniques so you can help your dog yourself in the comfort of your own home.

**Pricing:** Canine BoMaSi Body Work:

- Orientation session: \$ 60.00 (approx 60 min.)
- 30 minute session \$ 30.00 (at home instruction included)
